

August 2024 Regular Exam

Information Systems Technician

E-6 Bibliography (Bib)

Effective March 2024

NOTE:

1. **Reference links previously provided on this site have been permanently removed to comply with DoD security policies.**
2. This BIBLIOGRAPHY is provided by NAC to document the REFERENCES used by a subject matter expert (a Navy Chief in the rating) as the basis for writing the questions on the **RESERVE** Navy Advancement exam that will be given to **SELECTED RESERVE (SELRES) PERSONNEL** in **August 2024**.
3. The questions for your exam are based on the references listed in this bibliography. If a reference has been updated since the exam was created and differs from the reference listed here, the information in the updated reference will be considered when the exam is scored.
4. The **Professional Military Knowledge** (PMK) references are no longer listed as part of this document, since PMK questions are no longer part of the Navy-Wide Advancement Exam (NWAE). PMK knowledge will be measured through the separate Professional Military Knowledge Eligibility Exam (PMK-EE) and details on administration of this exam can be found in the current cycle NAVADMIN.
5. If you have questions, e-mail NETPDC_NAVY_ADVANCEMENT@navy.mil.
